ENGLAND

Coverage by sex April - June 2010

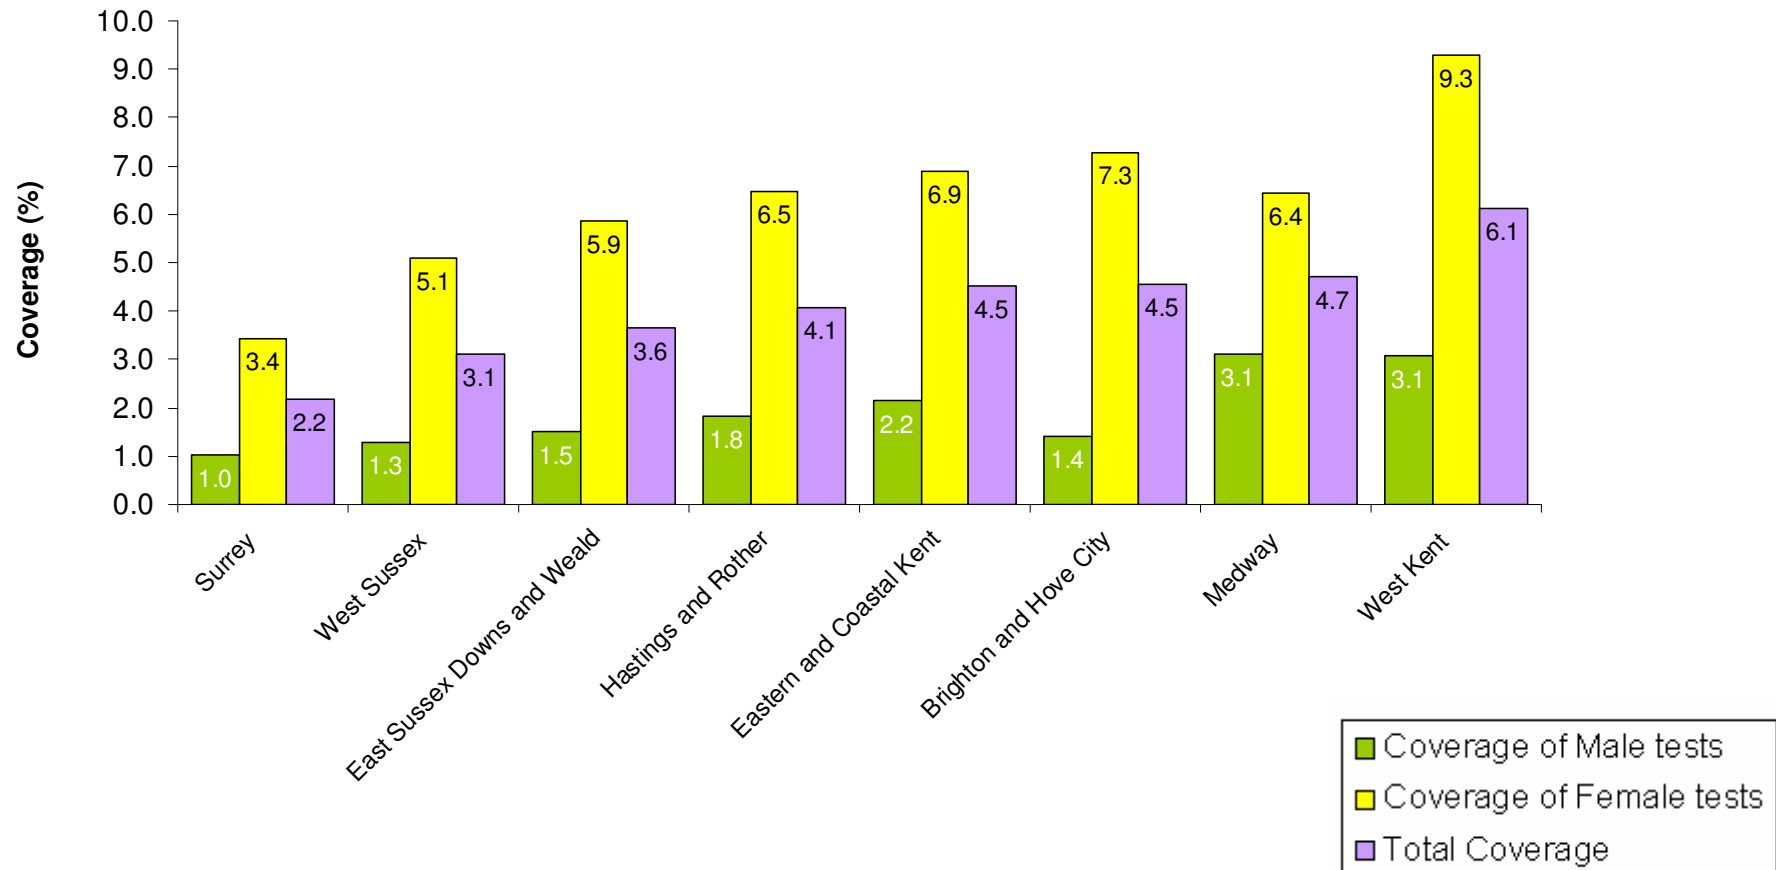

The denominator has been calculated by applying the sex proportions of the mid-2006 ONS population estimates to the 2009/2010 population projections. 'Total Coverage' includes tests where sex was recorded as either 'unknown' or 'unspecified'.

Data as of 16.08.10. Based on VSI criteria.

South East Coast

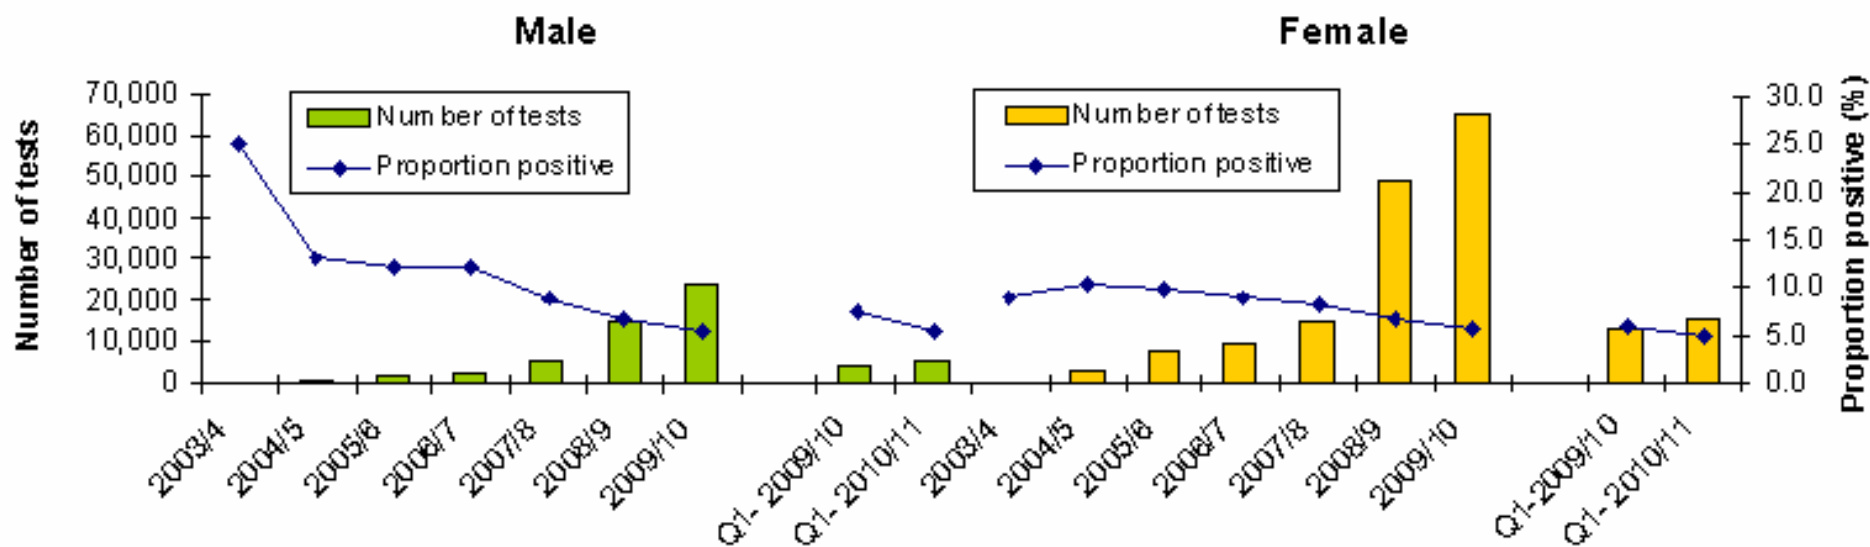

Coverage by sex April - June 2010

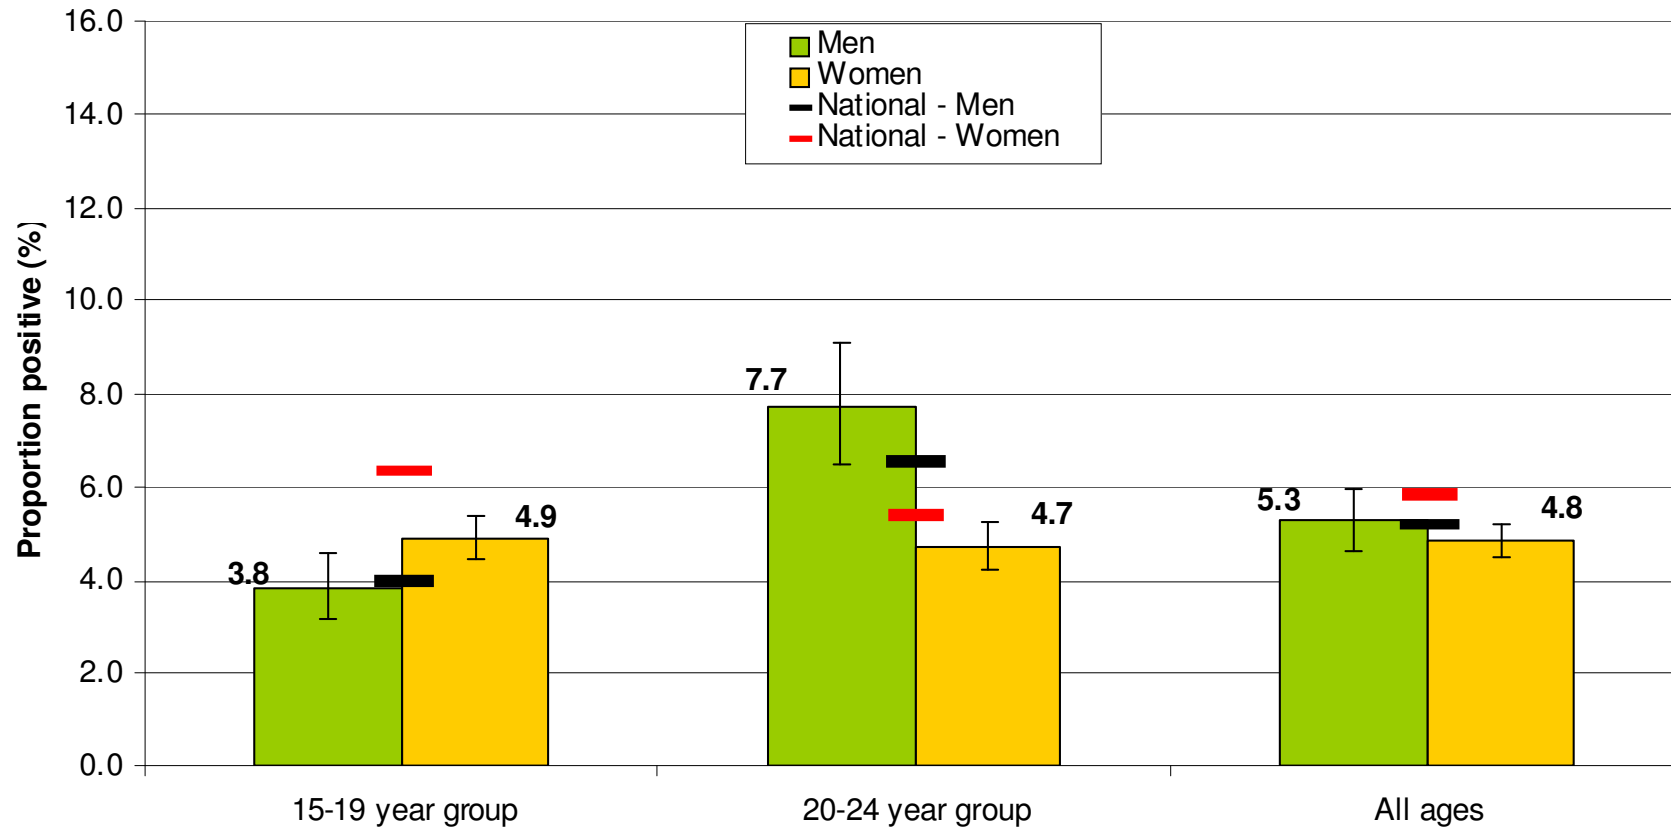

The denominator has been calculated by applying the sex proportions of the mid-2006 ONS population estimates to the 2009/2010 population projections. 'Total Coverage' includes tests where sex was recorded as either 'unknown' or 'unspecified'.

Data as of 16.08.10. Based on VSI criteria.

Testing volumes and proportion of positive cases by sex: April 2003 – June 2010

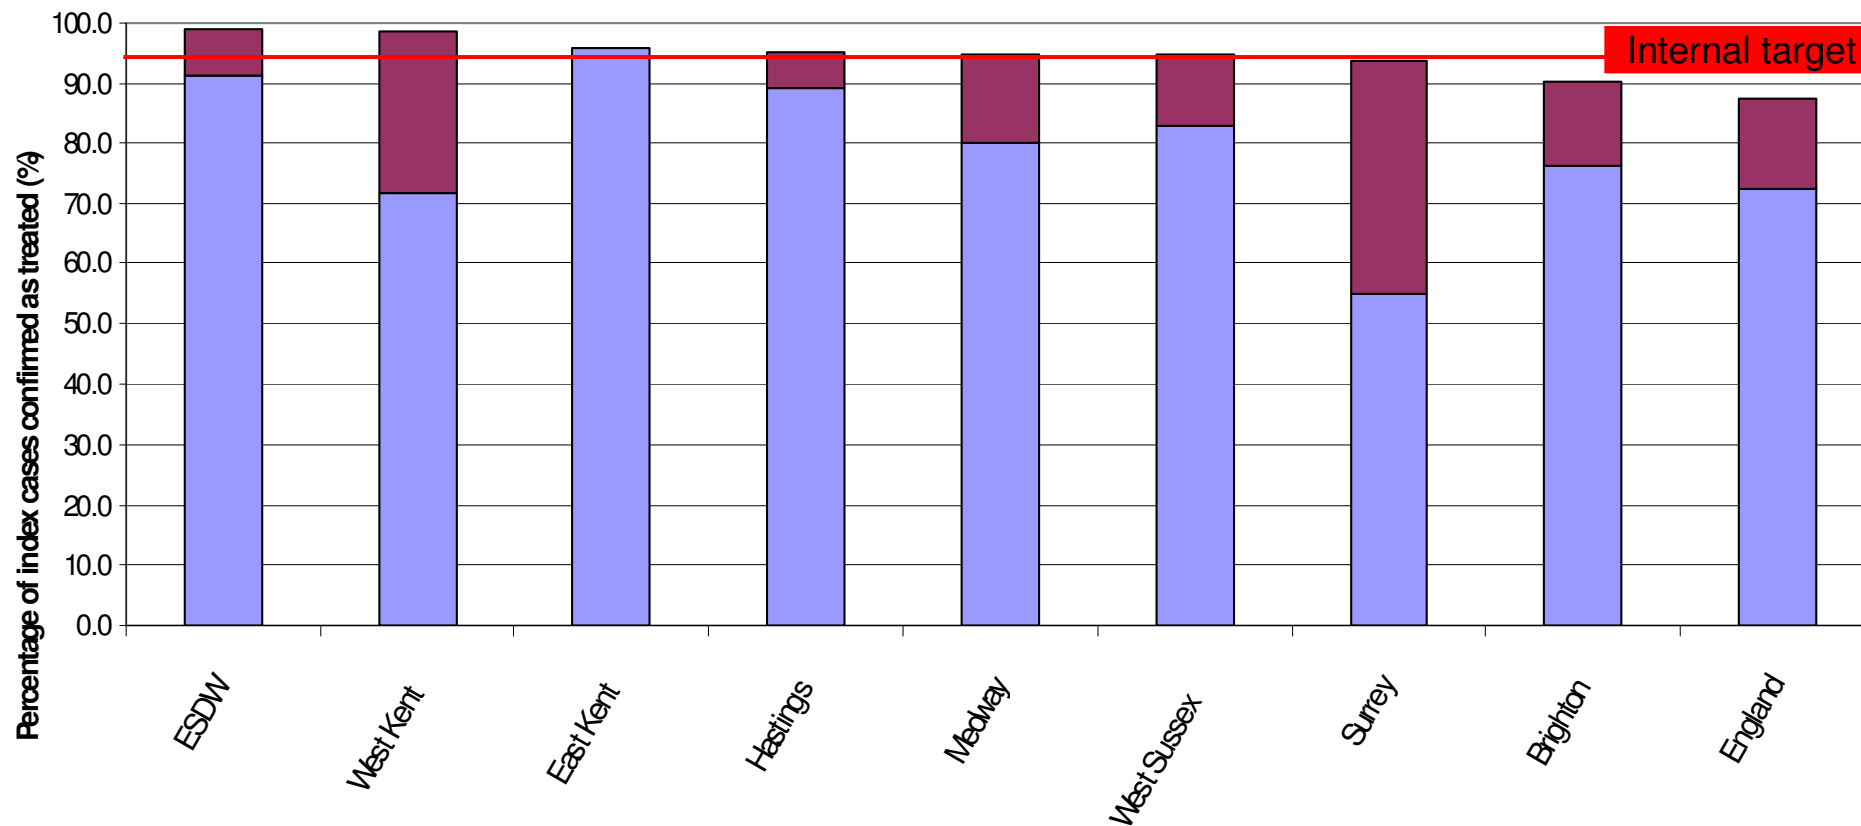

Proportion of positive cases by age and sex: Apr – June 10

Treatment and Partner Management

(Apr 2009 – March 2010)

Percentage of positive index patients reported as treated: South East Coast April 2009 – March 2010

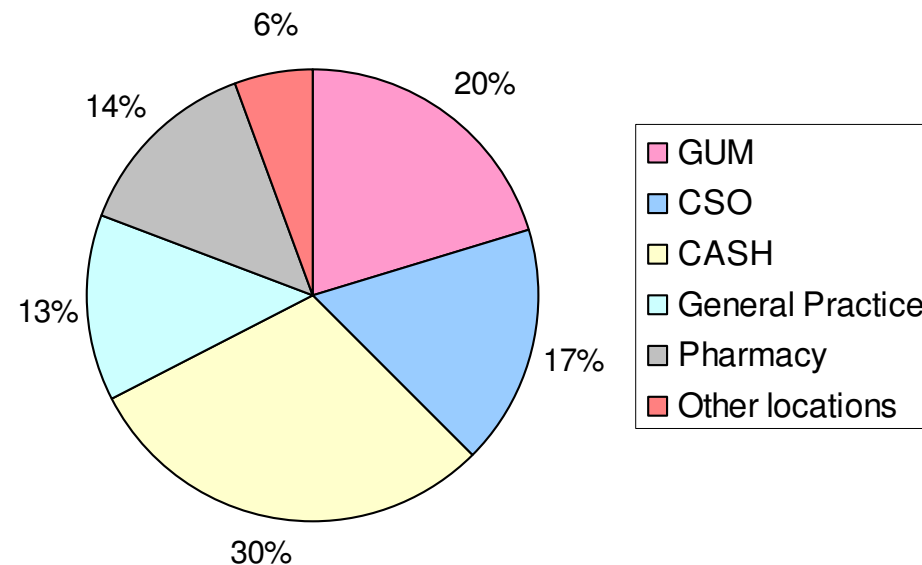

■ Patient confirmed treatment
■ Clinician confirmed treatment

Data as of 25.08.10

Proportion of index cases treated in various venue types: South East Coast (April 2009 – March 2010)

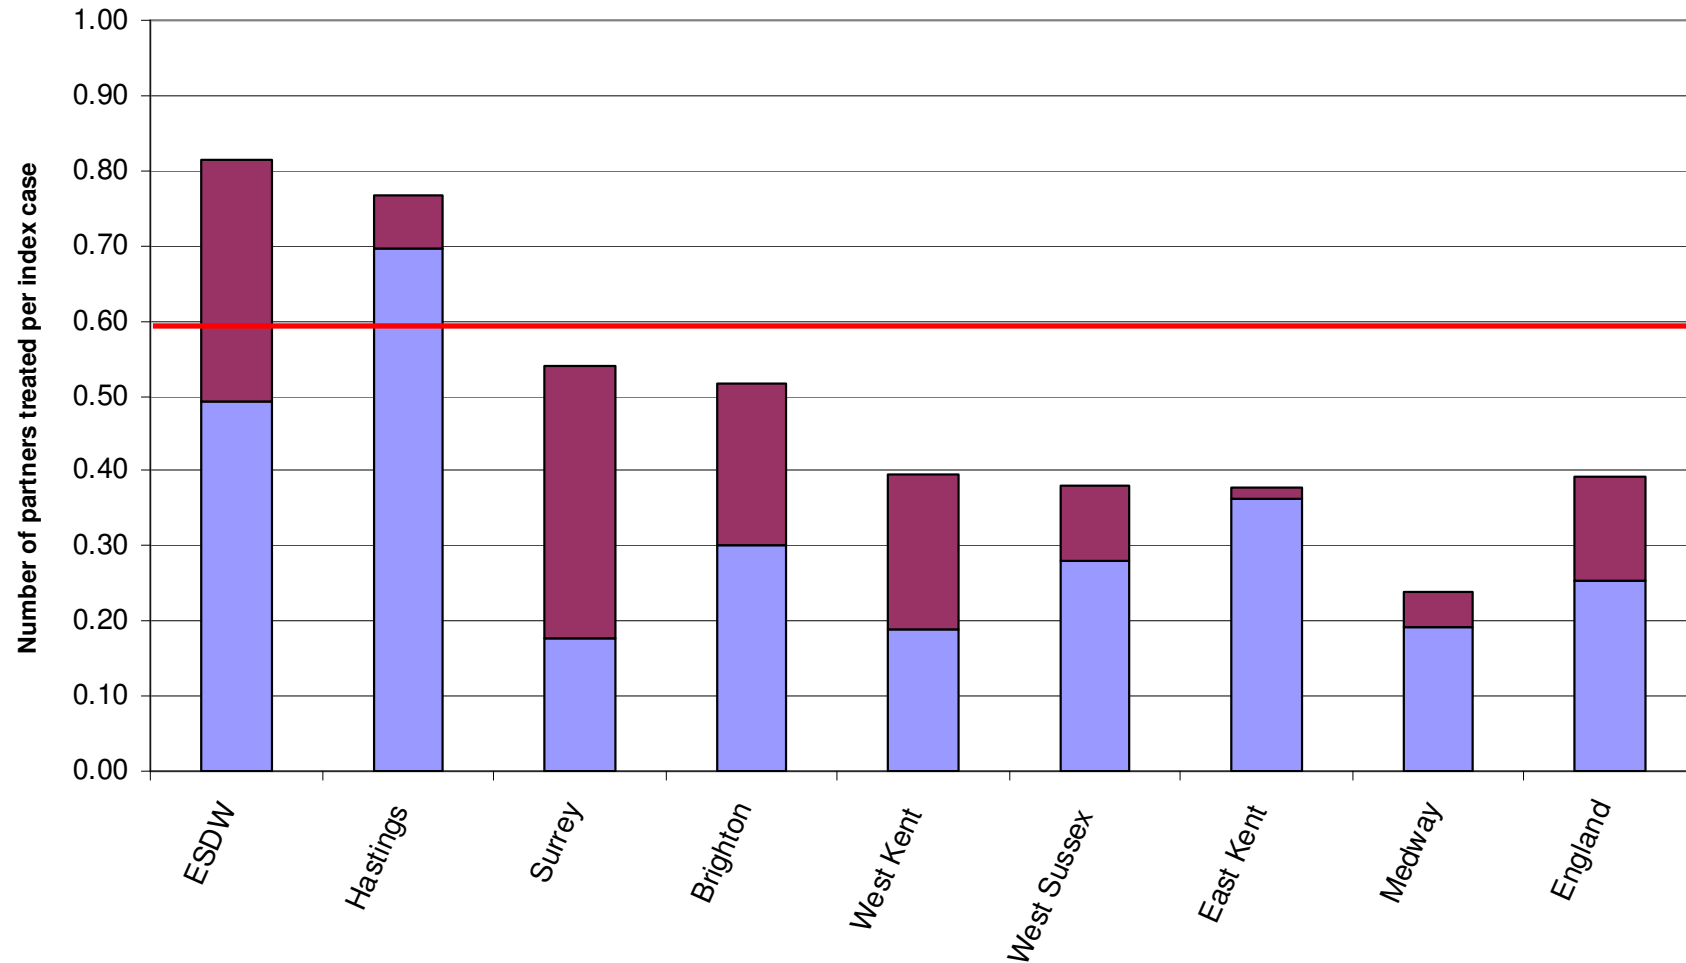

South East Coast figure: (n = 3,486)

We currently do not collect disaggregate data on the 'Other Locations'. This refers to any venue that has a qualified health professional present, such as a school nurse, or prison doctor.

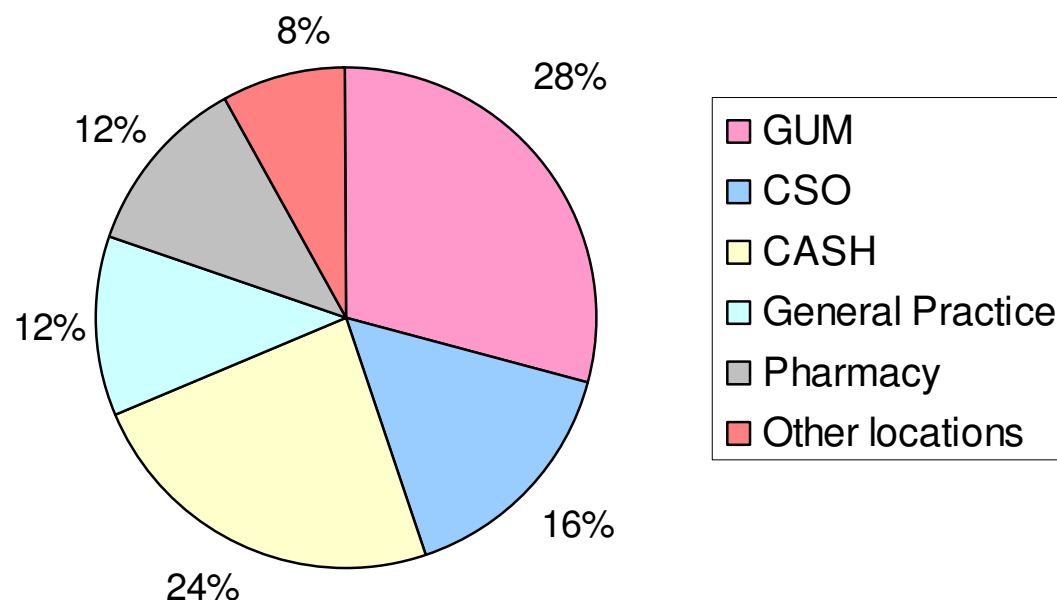

Data as of 25.08.10

Number of partners treated per index case: South East Coast April 2009 – March 2010

Proportion of partners treated in various venue types: South East Coast (April 2009 – March 2010)

South East Coast figure: (n = 1,647)

We currently do not collect disaggregate data on the 'Other Locations'. This refers to any venue that has a qualified health professional present, such as a school nurse, or prison doctor.
